MEET THE FOUNDER

Hi, I'm Aahniyah.

This all started with my own move.

In 2025, I took a **gap year to travel the world**, explore new cultures, and figure out where I could see myself settling down. I vlogged along the way, not as a tourist, but to understand **what everyday life actually felt like** in each country. What started as a search for my forever home turned into hopping from country to country and falling in love with **the freedom of living abroad**.

Eventually, I **established residency in Brazil**, now my part-time home. Going through it myself taught me how hard it can be to navigate unfamiliar systems, find reliable information, and connect with the right people, and I built **relationships with professionals who can make the move easier for you**.

- Gap year across multiple countries
- Residency established in Brazil
- Everyday life abroad, documented
- A trusted network of local pros

NOW CALLING
Brazil
my part-time home
BRA

> *My goal is to make moving abroad feel less intimidating and more achievable, so you can experience the world and find a place that truly feels like home.*

HOW I CAN HELP

Choose Your Path Abroad

Whether you're taking time away or making the move for good, every plan is built around your goals, your timeline, and the life you want abroad.

1. **Tell me your plans** — Fill out a short questionnaire
2. **Let's talk** — We meet for a consultation call
3. **Get your plan** — A package built around you

Book a Consultation →

YOUR NEXT CHAPTER IS WAITING

Less Dreaming. More Departing.

The country you keep daydreaming about doesn't have to stay on your vision board. Let's map out the move, the timeline, and the people who'll help you land, so the only thing left to plan is your first morning abroad.

Clarifying Questions

A few details I need from you to finish the site. Short answers are perfect, and anything you're unsure about we can talk through.

1. Social media

- What is your **TikTok handle**?
- Do you have **Instagram** or **YouTube**? If so, please send the links. If not, I'll remove those icons.

2. Logo

- Please send your logo as an **SVG** (best) or a **transparent PNG at least 1000px wide**. The current one was taken from your mockup and looks a little soft up close.
- Any other versions you have, like a white or one-color logo or just the globe icon.

3. Accessibility page

- The site has an accessibility statement that says you'll respond to accessibility feedback within **2 business days**. Does that work for you?

4. Privacy policy (needed before launch)

1. Your **legal business name**, and the country and state or city it's registered in.
2. When someone sends the contact form, is their message only used to reply, or added to an email list? How long do you keep messages?
3. For the questionnaire: how long should answers be kept (I suggest 12 months after last contact), and who are they shared with besides the Brazilian immigration professional?
4. Will you take package payments through **Stripe** or **Square**?
5. Do you plan to send email newsletters or text messages?
6. Would you like website analytics (like Google Analytics) to see how visitors use the site?
7. Should privacy questions go to **aahniyah@anomadsconsulting.com**, or a different email?
8. Where are most of your clients: the US, Brazil, Europe, or worldwide?

Because the site collects immigration-related information, I recommend having a lawyer give the final privacy policy a quick review.

5. Questionnaire & packages

- **Questionnaire:** combined, the two questionnaires come to about 35 questions. Could we split it into two stages: a shorter form on the website to recommend a package, and the detailed immigration questions sent privately once someone becomes a client?
- **Jotform:** when you set it up, please turn on Encrypted Forms and two-step login, and set notification emails to not include the answers.
- **Packages:** please send the details and pricing for each package, plus your Stripe or Square payment links when they're ready.
